To whom it may concern

Dear Sir or Madam,

Jonathan Coignard was studying urban system engineering with a focus on electrical engineering at the University of Technology of Compiègne (UTC).

As I was the teacher of Jonathan Coignard in ~~%Electrical machines+~~ Electrical machines, I can confirm that he is a reliable and independent student, who successfully passed all his exams and never failed to take an initiative. He was already interested in scientific problems and open minded.

To my mind, he is an easy-going person, who should have no difficulty in adapting to Berkeley laboratory. As far as I know, Jonathan Coignard has a good academic level in English language.

For the next academic year, he applies for an internship and perhaps a PhD in your University. I feel confident that he will perform very well therefore i recommend him strongly.
